Commissioner for Patents

Application Serial No. 10/667,585

1. The reply filed on 8/29/2006 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): the drawing filed 8/29/2006 does not properly respond to the prior objection because the "replacement" drawing is simply a copy of the original drawing, including all of the defects previously noted. If applicants wish to retain the original drawing in this application, then they should provide proper traversal argument. Otherwise, a proper replacement drawing should be submitted which addresses the objections. It is noted that the accompanying sheet filed 8/29/2006 labeled "Annotated sheet showing changes," if presented as a replacement sheet, would fully address the prior objection. Applicants are reminded that objections to drawings will not be held in abeyance. See 37 CFR 1.111. Since the above-mentioned reply appears to be bona fide, applicant is given ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roberto Rábago whose telephone number is (571) 272-1109. The examiner can normally be reached on Monday - Friday from 8:00 - 4:00. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Wu can be reached on (571) 272-1114. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
